

We are Pneumatech!

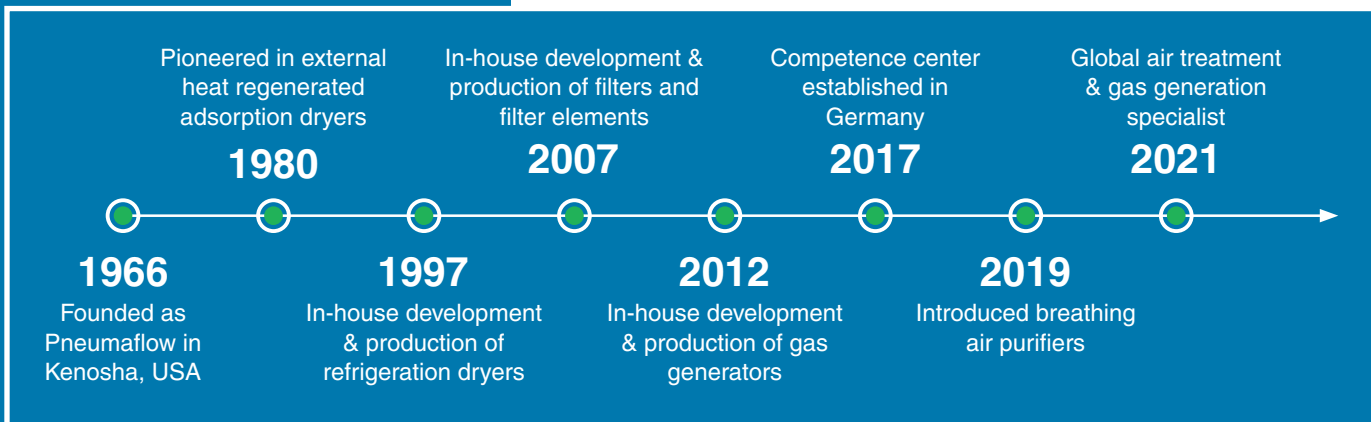

A leading compressed air treatment and gas generation equipment manufacturer with a presence across the globe, now in India. Besides having a global reach in terms of sales and customer service and support, we have a global approach to manufacturing, with manufacturing facilities located worldwide.

Our global operations are now in its 55th year. In India, we provide through Pneumatech India, our customers with solutions to enhance productivity and achieve their manufacturing goals.

The Journey

Our quest to deliver Pure Air & Pure Gas has complemented our journey with milestones. Every decade marks the commencement of a newer endeavor directed towards customers' progress.

Pneumatech since 2005, as a specialist air treatment and gas generation company, has been a part of Atlas Copco AB. Atlas Copco AB is a member of the Dow Jones World Sustainability Index. Over the last three years, we have been recognized by Forbes, Thomson-Reuters and Newsweek, among others, for our commitment to innovation and sustainability.

Endurance and energy-efficiency throughout

Sustainable future and environment are the focal points of our products and services. The energy efficiency of our products is engineered to create a positive environmental impact. Our engineers focus on a product's entire life cycle for a reduced carbon footprint from the conceptual level.

Carefully assessing the raw materials for the manufacturing process, our engineers focus on a product's entire life cycle. From the raw materials used to the manufacturing process and the customer's product usage to recycling the materials at the end of its life, we design products that are efficient in every aspect.

Pure air . Pure gas

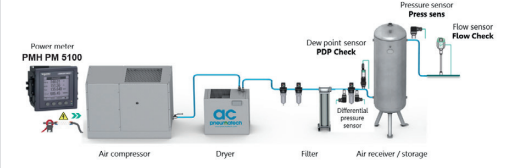

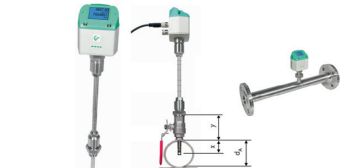

We also help our customers optimize their use of our products. This enables reduced energy consumption and maximized product lifespan. It means lower overall consumption of materials and reduced waste.

Going forward, we are with our equipment paving the way for a digitally connected world.

Our product offerings:

Engineered to your needs! Our products are manufactured to meet the specific requirements of your industrial application. Our world-class solutions are built to be reliable, long-lasting, high performance, and are backed by responsive service that spans the globe.

Condensate Management	Water Detector -Potential Free Contact & Alarm	Timer Drain Range	Electronic Zero Loss Drain	Mechanical Zero Loss Float Drain range	Ultimate water separators Range	EcoBox Solution Range	Patented OWS technology Range
							
	Drains		Moisture traps			Oil Condensate separators	

Measurement Equipment	Energy monitoring in the compressor station	PDP Check M / M plus – Portable dew point meter	PDP Check S / S3 / S4 Stationary dew point set	Flow Check Universal Thermal mass flow sensor
				
	Energy monitoring in the compressor station	Dew point PDP check	Consumption and flow measurement	

Check Box S1 to S5 Chart recorder	Check Box S6 Intelligent chart recorder	Check Box M6	Check Box 500 mobile – Hand-held instrument	Current / effective power meter PMH PM 5100	Mobile current/effective power meter PMH PM 600	Leak Check Pro1 / Pro 2
						
Check Box - chart recorder			Power meter PMH PM		Leak check	

Breathing Air Purifiers	BA HE Range	BA S Range
		
	Industrial grade breathing air	

Gas generators	Nitrogen Gas Generators PSA Extruded Adsorber	Nitrogen Gas Generators PSA Welded Adsorber	Nitrogen Gas Generators Membrane Technology	Oxygen Gas Generators PSA	Oxygen Gas Generators PSA Extruded Absorber
					
	Nitrogen			Oxygen	

Air treatment	Refrigeration Air Dryer Range COOL	Refrigeration Air Dryer Range AD	Refrigeration Air Dryer Range AC & AC VSD	Heatless Air Dryer Range PH	Heated Purge Air Dryer Range PE	Blower Purge Air Dryer Range PB & PB ZP
						
	Fridge Dryers			Desiccant Dryers		

Ultimate Compressed air PMH Filters Range (Threaded)	Compressed air FF Filters Flanged Range	Silicon Free SLF Filters	50 bar Aluminium range Threaded Design	50/100 bar SS range Threaded Design	300 bar SS filter Threaded Design
					
Compressed Air Filters			HP High Pressure Filters		

POU Membrane Air Dryer Threaded Range	PMD Membrane Air Dryer P/N range PDPS 32°/55° C	Activated Carbon Filters	Activated Carbon Towers Extruded Tower design	Activated Carbon Vessels Welded Tower Design
				
Membrane Air Dryers		Active Carbon Filters		

FSI Sterile Filters Range	Process Filters Range	TF DC - Filters with desiccant cartridges	TF HC - Filters with hopcalite cartridges	TF CC - Filters activated carbon cartridges
				
Special Filters				

Our Industrial Applications

Laser cutting

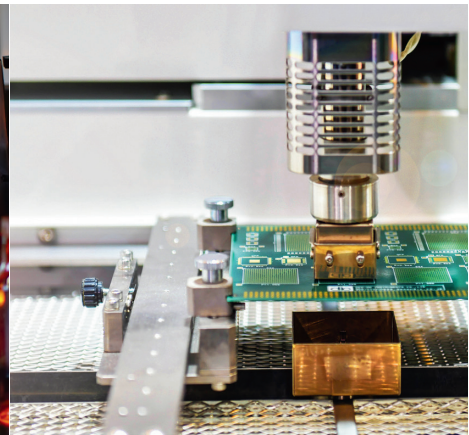

Nuclear plants

Gas generation

Glass/crystal

Electronic component manufacturing

Energy

Automotive

Packaging and bottling

Our compressed air equipment is easy to configure, transport, use, and maintain. For premium dry and clean compressed air and pure gas generation, you can count on us.

To know more about our products, production facilities, global reach, and aftermarket support, do visit our website www.Pneumatech.com/en
